PROFILE

I'm Tanishq Kaushal, a web engineer. I can develop cross-browser, stable, and responsive web applications. I love solving problems by using the resources I have at hand.

PROFESSIONAL EXPERIENCE

08/2023 – present
Kerala, India

Software Engineer, *Asymmetri.in*
Building industry standard software(s) and applications. Improving performance of existing applications to scale them to larger userbase. Working with front-end frameworks, backend infrastructures and server components and rendering.

04/2023 – 08/2023
Kerala, India

Front-end Engineer, Intern, *Asymmetri.in* ☒
Working on various JavaScript/TypeScript frameworks, in a team of engineers and managers. Building complex UIs and finding creative solutions for web based problems.

03/2022 – 03/2023
New Delhi, India

Front-end Engineer Intern, *Probooking* ☒
I'm a JavaScript intern at Probooking, I've learnt a lot about the JS language and along with that finding creative solutions for UI challanges while working in a team of developers.

PROJECTS

01/2023 – 02/2023

Sperse Chat (React | JavaScript | Firebase | Vite) ☒
Sperse chat is an open-source free to use chat application, it is still in beta so some features are still in development and you can expect some minor bugs here and there.

09/2022 – 10/2022

Random JS (JavaScipt | CDN) ☒
Generating randomly is a real pain in JavaScript. The literals and syntax is way too long, RandomJS is here to save the day by providing a library that lets you randomize stuff with one simple method call!

12/2022 – 01/2022

Vision videos (React | JavaScript) ☒
Vision video player lets you watch your favorite videos ad-free!

EDUCATION

08/2020 – present
Punjab, India

BCA (Bachelor of Computer Application), *Chandigarh University*

SKILLS

Tech Stack
Everything ECMAScript
